The Future of Student Assessment
Welcome to the Future of Student Assessment, an invitational colloquium on issues surrounding online student assessment.
The Appalachian Educational Lab is pleased to offer this virtual event as an enhancement and an extension to the live event, held on November 20, 2000, at the J.W. Marriott Hotel in Washington, D.C.
Sponsored by AEL and the U.S. Department of Education, the colloquium invited Chief State School Officers, as well as state education agency directors of assessment and technology, legislators and their aides, and representatives of national associations concerned with large-scale assessment practices.
The virtual event captures all of the live content from the colloquium, as well as additional handouts, papers, slides and other content. You are invited to register for the event, then to logon for the virtual event, which will begin at noon on December 1, 2000 and run through January 2, 2001.
